

National TalentS Profile

An Overview

About TalentS

At TalentS, we work with clients looking to make a lasting social impact in their communities. Our experienced team members interpret goals into interactive and innovative solutions that are skillfully designed and well executed.

Audience experiences can range from youth interactive learning programs, to traveling exhibitions, events and festivals, through to destinations such as visitor attractions, science centers and Fab Labs for curious minds. Our different experiences empower youth with the right problem solving skills that facilitates their journey in becoming inspirational leaders, innovators and influencers in their communities. Leading purposeful lives, enabling future economic growth and achieve the national 2030 vision.

Our Audience experiences cover:

- 1 Interactive Museums and Science Centers**
We create message driven experiences designed to connect, engage and inspire audiences.
- 2 FABLABs and Innovation Hubs**
We setup and operate FabLabs and innovation hubs designed to empower youth with the tools that enable them to make almost anything.
- 3 Interactive Programs and Exhibitions**
Interactive Learning Touring Programs and Exhibitions Our programs span a wide-spectrum of activities, including science and innovation camps, robotics competitions and multimedia workshops.
- 4 Events and Festivals**
Short duration and temporary cultural and science events and festivals that aim for maximum exposure to large crowds.

Management Profiles: CEO - Saeed Saeed

Saeed Saeed is cofounder, CEO and Chairman of board of National Talents Company. He has delivered Kingdom wide programs that has enabled thousands of children to think like scientists, develop skills, and consider career opportunities in the fields of science, technology, engineering and maths for clients. Saeed leads a team of more than a hundred employee aiming to to inspire youth through designing and operating interactive & creative learning experiences using science, technology, engineering and math.

TalentS projects span a wide range of informal interactive learning spaces, from museums, science centers and fab lab to festival and exhibition participation. His team works from Riyadh, Khobar, Dubai and London delivering services for landmark science centers and fabrication labs and working across the Gulf with clients include Saudi Aramco Energy Exhibit, Mishkat interactive center for King Abdullah City for atomic and renewable energy, the Etihad Museum (Dubai) and the Abu Dhabi Education Council.

Saeed has a BS degree in Electrical Engineering from University of Tulsa and a Masters degree in Electrical Engineering from Cornell University. During his time at Cornell University, Saeed led a team of engineers to compete and win the international robotics soccer competition (Robocup). His passion to learning and making a difference came out his 15 year work at Saudi Aramco where he was inspired and taken away by the Sr. VP vision at that time 'Where every employee excel and create a better tomorrow' leading him to the startup of Talents in 2007. He has recently graduated from Owner/ President Management Program (OPM) at Harvard Business School.

The program is a rigorous, 9-week Executive Education program held over a 3-year period, for business owners and entrepreneurs with at least 15 years of management experience and who hold a major equity stake in their company. Saeed is also the chairman of board for Said group family business which was established by his father, the late Atef Saeed and is a member of Young President Organization (YPO).
